### **DETAILED ACTION**

This action is in response to the application filed on 10 December 2001 in which claims 1-60 are pending.

#### ***Election/Restrictions***

This application contains claims directed to the following patentably distinct species of the claimed invention:

Species I: Figure 1-2 reads on the first embodiment incorporating a sealing member/lip of claims 1-11.

Species II: Figures 4 reads on the second embodiment incorporating a circumferential extending bulge of claims 1 and 12-15.

Species III: Figures 10-11 reads on the third embodiment incorporating a curved lip member fitted in a chamfer of claims 1 and 16-25.

Species IV: Figure 3 reads on the fourth embodiment incorporating an axially protruding web of claims 26-30.

Species V: Figure 8 reads on the fifth embodiment incorporating an axially protruding slotted web of claims 26 and 31-33.

Species VI: Figure 5 reads on the sixth embodiment incorporating flanged stud and sleeve portions of claims 34-38.

Species VII: Figure 9 reads on the seventh embodiment incorporating flanged stud and sleeve portions of claims 34-35, and 39-42.

Species VIII: Figure 7 reads on the ninth embodiment incorporating flanged stud and sleeve portions with holding tongues of claims 34-35, 43-46.

Species IX: Figure 14 reads on the tenth embodiment incorporating holding tongues of claims 47-48, and 51.

Species X: Figure 15 reads on the eleventh embodiment incorporating holding tongues of claims 47-52.

Species XI: Figure 12 reads on the twelfth embodiment incorporating wire-looped lamellas of claims 53-55, and 59.

Species XII: Figure 13 reads on the thirteenth embodiment incorporating lamellas of claims 53 and 56-60.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
